Recognition of non-formal and informal learning: The Finnish example and the implementation at Haaga-Helia UAS

The New Student: Flexible Learning Paths and Future Learning Environments

20-21 September 2018, Vienna - Marjaana Mäkelä, Principal Lecturer
How to widen access and strengthen alternative access through validation of nonformal and informal learning?

How do we address the soft facts, e.g. general attitude or commitment to recognition of non-formal and informal learning?
A dual approach

Flexible Learning Paths

• Unfolding an alternative path to access Finnish Higher Education
• Presenting a practical solution of a Finnish University of Applied Sciences

Future Learning Environments

• Example of a hands-on process of work-based learning to enhance
  • blended learning
  • dialogue between HEI and working life
  • commitment within the HEI

“lifelong learning endeavours, the student-centred approach and diversification of paths into and within higher education”
Access to Finnish Higher Education Institutions

Universities

• Entrance examinations
• Open Path
  • Most institutions apply
  • Some restrictions on degree programs available via Open Path and on number of accepted students

Universities of Applied Sciences

• Entrance examinations
• Open Path on levels 6 and 7
  • Most institutions apply
  • General rule: 60 (30) ECTS of completed studies → separate application process

“Also Finnish higher education institutions enjoy extensive autonomy. (...) Institutions are autonomous regarding their teaching and research.”

Open UAS studies, case Haaga-Helia

• A study fee: 150 euros per semester
• Language criteria: when in English, IELTS score 6 or more
• Diversified student body
  1) Goal-oriented, full-time students aiming at gaining access after completion of the minimum of 60 ECTS: select in the beginning the option of ”Open Path”
    → a sub-group: applicants having failed the entrance examination
  2) Students interested in certain topics
    → may become more oriented towards a degree. Mostly part-time
  3) Students motivated to complete only a few courses
    → often a professional trigger
• Counselling and advising activities are available for all
• Pre-designed study paths ensure the most successful entry to the institution
From Open Path towards degree studies at Haaga-Helia UAS

Successfully completed 60 ECTS (30 on Master level)

Formal application to the Degree Programme (twice a year)

Interview with the DP director

Acceptance: enrolment to second year studies and meeting with a study counselor for check-up and guidance

25.9.2018

The New Student Vienna 2018 Marjaana Mäkelä
RPL as part of gaining credits for Open Path students

• Similar process with degree students:
  • VNFIL
  • **Work & Study**, the Haaga-Helia approach to Work-based learning
• Work-based learning is an institutional policy and mindset
  → employability
  → networking with relevant sectors of working life
  → not only RPL as prior learning, but involving learning that occurs alongside studies, in real professional contexts
  → credibility and transparency of education
• Majority of Open UAS students work while studying → facilitates integration of W&S
Studying at Haaga-Helia

- Participate in courses
  - Contact
  - Virtual
  - Intensive
  - Blended
  - Project
  - Etc.

- Recognition of learning
  - Recognition of prior learning
    - Credit transfer (accreditation)
    - Demonstration
  - Work-based learning

Finalizing studies

CAREER
Work & Study: validation in practice

Recognition and assessment of competences

Agreement on feedback from work

Knowledge, skills and attitude at work

Reflection towards intended learning outcomes of study modules

Filling the possible gap creatively and efficiently: dialogue with lecturers

Credits

Competition

Demonstration Day

Student at work
Demonstration Day

1. Applicant for validation
   - Self-reflection throughout the process
   - A number of ways to demonstrate one’s competences and skills

2. Peer group: other students as applicants provide feedback

3. Lecturers: design the assessment criteria and procedure, monitor the process

4. Alumni: act as co-assessors and provide professional feedback

For staff:
- Transparency
- Dialogue
- Collaborative mindset

Mandatory pre-work

Special 5 ECTS assessment training
